

Student Remote Learning Platforms at FISC

Remote Learning

Our staff are working extremely hard to develop appropriate resources that will enable learning to take place for our students. Staff are collating learning resources to ensure they do their best to cater for all students.

When using learning platforms, students need to be **respectful of each other and of their teachers**; not only in the way in which they post comments and questions, but also in allowing teachers a reasonable amount of time to respond to questions. Please **do not expect additional interactions outside of working hours and to be patient and mindful** when waiting for support and feedback.

IMPORTANT: it is vital students exercise online etiquette when communicating to staff and fellow students. 'Online etiquette' is very broad but generally speaking our expectation means students will uphold FISC values: Respect, Aspiration, and Responsibility.

While we do not anticipate any issues with FISC students in this area please remember students are required to meet Department of Education technology usage policies at **ALL** times. In addition, please remember the 'online or remote' learning is **only for current FISC students**.
